

### RaPET® ASO

## SECTION 1 – PRODUCT AND COMPANY IDENTIFICATION

Product Identification: RaPET® ASO Ref No. 1125, 1125-050, etc.

Test kit contains ASO Latex Reagent, ASO Positive Control, Negative Control, and Glycine-Saline Buffer (20X) Concentrate.

Company Identification: Stanbio Laboratory

1261 North Main Street Boerne, TX 78006

Telephone Number: (830) 249-0772

Website: http://www.stanbio.com

### **SECTION 2 – HAZARDS IDENTIFICATION**

**Routes of Exposure:** Only when used as directed.

**Classification system:** In compliance with OSHA's Hazard Communication Standard (29CFR 1910.1200), a chemical mixture is considered hazardous if it contains 1.0% or more of a hazardous compound or 0.1% or more of a carcinogen. The product contains hazardous material(s) in excess of these amounts; therefore, precautions adequate for the pure form of the material(s) are presented here.

### National Fire Protection Association (NFPA) ratings (scale 0-4):

Health=0

Fire=0

Reactivity=0

#### Hazard Overview

Health: Minimal risk if used as directed.

Fire: Not considered a fire hazard.

Reactivity: Glycine-Saline Buffer (20X) Concentrate contains Sodium Chloride; Glycine; and

Sodium Azide. Minimal risk.

# Special Hazards:

Sodium Chloride: Not considered a fire hazard.

Glycine: With heat, oxides of nitrogen, ammonia, carbon monoxide and carbon dioxide are formed. Sodium Azide: In dry form, decomposes explosively on heating. Reacts with copper and lead to produce explosive azides.

### Carcinogenicity information

OSHA (Occupational Safety and Health Administration): None of the ingredients is listed.

NTP (National Toxicology Program): None of the ingredients is listed.

IARC (International Agency for Research on Cancer): None of the ingredients is listed.

### SECTION 3 – PRODUCT COMPOSITION

The test kit is composed of ASO Latex Reagent, ASO Positive Control, Negative Control, and Glycine-Saline Buffer (20X) Concentrate.

ASO Latex Reagent/1126 (The reagent contains by percentage the following amounts of chemicals)

SDS.1125.00 rev. 04/2015

Page 1 of 5

#### RaPET® ASO

Chemical Name CAS No. Concentration

None determined to be hazardous.

ASO Positive Control/1127 (The reagent contains by percentage the following amounts of chemicals)

Chemical Name CAS No. Concentration

None determined to be hazardous.

Negative Control/1192 (The reagent contains by percentage the following amounts of chemicals)

Chemical Name CAS No. Concentration

None determined to be hazardous.

Glycine-Saline Buffer (20X) Concentrate/1191 (The reagent contains by percentage the following amounts of chemicals)

### **SECTION 4 – FIRST AID MEASURES**

RESPIRATORY PROTECTION: None required unless product is misted

VENTILATION: Good ventilation

GLOVES: Yes LAB COAT: Yes EYE PROTECTION: Yes

LABORATORY PRECAUTIONS: Normal laboratory precautions are recommended.

## <u>SECTION 5 – FIRE FIGHTING MEASURES</u>

Sodium Chloride

HAZARDS: Not considered a fire hazard.

EXTINGUISHING MEDIA: For small fires, use water spray, dry chemical, carbon dioxide or chemical foam for surrounding fire. Material is not considered fire hazard. GENERAL INFORMATION: Wear a self-contained breathing apparatus and protective clothing.

Glycine

HAZARDS: With heat, oxides of nitrogen, ammonia, carbon monoxide and carbon dioxide are formed.

EXTINGUISHING MEDIA: For small fires, use water spray, dry chemical, carbon

SDS.1125.00 rev. 04/2015 RaPET® ASO

<sup>\*\*</sup>Once concentrate is diluted to final volume, solution is below hazardous limits: sodium chloride will be 1%, glycine will be 0.75%, sodium azide will be 0.1%.

#### RaPET® ASO

dioxide or chemical foam for surrounding fire. Material is not considered fire hazard. GENERAL INFORMATION: Wear a self-contained breathing apparatus and protective clothing.

Sodium Azide

HAZARDS: In dry form, decomposes explosively on heating. Reacts with copper and lead to produce explosive azides. In wet form, as presented in reagent, the product is significantly less reactive, however, careful handling should be used when pouring reagent down sink. Adequate flushing of water down drain should be done to avoid accumulation. EXTINGUISHING MEDIA: Dry chemical, foam or carbon dioxide.

GENERAL INFORMATION: Wear a self-contained breathing apparatus and protective clothing.

### SECTION 6 – ACCIDENTAL RELEASE MEASURES

**Safe work practices:** Disposal should be made in accordance with existing disposal practices employed for infectious waste.

**Measures for environmental protection:** Prevent liquid and vapor from entering sewage system, storm drains, surface waters, and soil.

**Measures for cleaning/ collecting:** Wash spill area with appropriate cleaning materials. Dispose of in a manner consistent with federal, state and local regulation.

# **SECTION 7 – HANDLING AND STORAGE**

**Information for safe handling:** Refer to the package insert or product label for additional information on storage conditions.

Information about protection against explosions and fires: No special measures required. Requirements to be met by storerooms and receptacles: Refer to the package insert or product label for additional information on storage conditions.

**Information about storage in one common storage facility:** Store product in original packaging.

Further information about storage conditions: Protect from heat and direct sunlight.

### SECTION 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

**Components with Occupational Exposure Limits:** The product does not contain any hazardous ingredients with occupational exposure limits established by OSHA, ACGIH, or NIOSH.

General protective and hygienic measures: Always maintain good housekeeping. Do not eat, drink or store food and beverages in areas where chemicals are used. Wash hands before breaks and at the end of the work shift.

**Breathing equipment:** Use adequate protection to prevent inhalation, as well as good ventilation.

Hand protection: Wear necessary gloves when handling.

Eye protection: Wear appropriate safety glasses or other protective eyewear.

**Body protection:** Wear apron, laboratory coat or appropriate protective clothing when handling.

### **SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

Sodium Chloride

Boiling Point: 1413°C

SDS.1125.00 rev. 04/2015

RaPET® ASO

Page 3 of 5

### RaPET® ASO

Melting Point: 801°C Specific Gravity: 2.16 Flash Point: NA

Glycine

Boiling Point: NA Melting Point: 290°C Specific Gravity: 1.16 Flash Point: NA

Sodium Azide

Boiling Point: NA Melting Point: 300°C Specific Gravity: 1.85 Flash Point: Not identified

### SECTION 10 – STABILITY AND REACTIVITY

Glycine-Saline Buffer contains sodium chloride, glycine and sodium azide.

STABILITY: Stable

INCOMPATIBILITY: None

HAZARDOUS POLYMERIZATION: Will not occur

# <u>SECTION 11 – TOXICOLOGICAL INFORMATION</u>

Sodium Chloride

THRESHOLD LIMIT: Not established

LD50 (oral rat): 3000 mg/kg

CARCINOGEN: No

Glycine

THRESHOLD LIMIT: Not established

LD50 (oral rat): Not established

CARCINOGEN: No

Sodium Azide

THRESHOLD LIMIT: Not established

LD50 (oral rat): 27 mg/kg CARCINOGEN: No

## **SECTION 12 – ECOLOGICAL INFORMATION**

**Toxicity:** Further details: no data available

Persistence and degradability: Further details: no data available

Bioaccumulative potential: Partition coefficient: n-octanol/water: no data available

Mobility in soil: no data available

Results of PBT and vPvB assessment: no data available

**General information:** Do not allow to enter into ground-water, surface water or drains.

## <u>SECTION 13 – DISPOSAL CONSIDERATIONS</u>

Dispose of in a manner consistent with federal, state, and local regulations.

SDS.1125.00 rev. 04/2015

### RaPET® ASO

### **SECTION 14 – TRANSPORT INFORMATION**

**DOT Class** - Not restricted for transportation.

**IMDG Class** - Marine pollutant: No, not restricted for transportation.

ICAO/IATA Class - Not restricted for transportation.

### **SECTION 15 – REGULATORY INFORMATION**

SARA (Superfund Amendments and Reauthorization Act of 1986 – USA):

Section 302/304 (40CFR355.40): The product does not contain listed substances.

**Section 313 (40CFR372.65):** The product does not contain listed substances.

California Proposition 65 (USA)

Chemicals known to cause cancer: The product does not contain listed substances.

Chemicals known to cause female reproductive toxicity: None of the ingredients is listed.

Chemicals known to cause male reproductive toxicity: None of the ingredients is listed.

Chemicals known to cause developmental reproductive toxicity: None of the ingredients is

Markings according to European guidelines: observe the general safety regulations when handling chemicals. The product does not require any hazard warnings according the respective European Community (EC) Directives.

## **SECTION 16 – OTHER INFORMATION**

The information contained in this SDS is believed to be accurate and represents the best information currently available. Stanbio Laboratory makes no warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should determine suitability of the information contained in SDS for their particular purpose. In no way shall Stanbio Laboratory be liable for any claims, losses or damages resulting from using information contained in SDS.
